TARIFF FORMAT

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the California Public Utilities Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14.
- C. Paragraph Numbering Sequence** - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 1.
 - 1. (A)
 - 1. (A) 1.
 - 1. (A) 1. (a)
 - 1. (A) 1. (a) I
 - 1. (A) 1. (a) I (i)
 - 1.(A) 1. (a) I (i) 1.
- D. Check Sheets** - When a tariff filing is made with the California Public Utilities Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with California Public Utilities Commission.
- E. Use of Capital Letters** – Capital letters are used throughout the tariff to designate terms that are defined in “Definitions” located in Section 1.0, Rule No. 1.

Services are offered via the Company's facilities (whether owned, leased or under contract) in combination with facilities services provided by other certificated carriers.

ECN reserves the right to withdraw any service provided pursuant to this tariff or to modify its terms and conditions, upon 30 days notice, in the event that changes occur (including regulatory changes) which affect either the availability of facilities or UNEs to ECN, or the terms and conditions upon which they are obtained. The foregoing is in addition to all other existing rights retained by ECN to modify or withdraw its services at any time.

Any other telephone company may not interfere with the right of any person or entity to obtain service directly from the Company. No person or entity shall be required to make any payment, incur any penalty, monetary or otherwise, or purchase any services in order to have the right to obtain service directly from the Company.

1. A Customer desiring to obtain service, which may be initiated based on a written or oral agreement between the Company and the Customer, must provide the following information: an address to which the Company shall mail or deliver all notices and other communications, except that the Customer may also designate a separate address to which the Company's bills for service shall be mailed.
 2. The Company shall designate an address to which the Customer shall mail or deliver all notices and other communications, except that the Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.
 3. For services offered on a tariffed basis, the carrier shall provide the subscriber a written confirmation of the order at the point of sale for in person transactions, and, for any other transactions, not later than seven days after it is accepted, or seven days after the carrier providing the service is notified of the order originated through another carrier. The confirmation shall be in a minimum of 10-point type, shall include the key rates, terms and conditions for each service ordered, and shall conform to the same requirements as set forth in Rules No. 3 (A) through No. 3 (E). Ambiguities in any agreement will be construed against the carrier.

No. 3. Service Orders (continued)

(A) Service is installed by arrangement between ECN and the Customer (continued).

5. Service Orders may be initiated based on a written or oral agreement between the Company and the Customer. In either case, prior to the commencement of service, the Customer shall be informed of all rates and charges for the services the Customer desires and any other rates or charges which will appear on the Customer's first bill.

Carriers shall also provide consumers initiating a service with sufficient information to enable consumers to make informed choices among services, and shall clearly and conspicuously disclose in the course of the sale transaction the customer's right to cancel a term contract. In an oral transaction, the right should be disclosed as well.

6. If the Service Order is taken verbally, the Company will, within 10 days of initiating the Service Order, provide a confirmation letter setting forth a brief description of the services ordered and itemizing all charges which will appear on the Customer's bill. The letter must be in a language other than English if the sale was in another language. All Service Orders taken verbally shall also be recorded using Third Party Verification.
7. Within 10 days of the Service Commencement Date, the Company will state in writing for all new Customers all material terms and conditions that could affect what the Customer pays for telecommunications service provided by the Company.

The carrier's reasons shall be provided in writing unless the applicant agrees to accept a different form of notice.

10. When establishing an installation or repair appointment for which the subscriber must be present, the carrier shall offer the subscriber a four-hour or shorter period during which it will arrive to commence work. If the installation or repair is not commenced within that period, the carrier offering the repair or installation service shall provide a \$25 minimum credit to the subscriber unless the appointment was missed because (1) the carrier was denied access to the premises, (2) force majeure, or (3) the carrier cancelled or rescheduled the appointment no later than 5:00 p.m. two business days prior to the appointment. This credit is independent of any remedies available to the subscriber under Civil Code § 1722(c) or elsewhere.

SECTION 1.0: RULES (continued)

No. 3. Service Orders (continued)

(A) Service is installed by arrangement between ECN and the Customer (continued).

11. Charges for non-subscription pay per use features are not authorized unless the user knowingly and affirmatively activates the service by dialing or some other affirmative means. Remaining on the line, or failing to remain on-hook for a sufficient time, or any other ambiguous action, shall not in itself constitute authorization; an unambiguous, associated, affirmative action is required.
12. All disputed charges for any telecommunications service are subject to a rebuttable presumption that the charges are unauthorized unless there is (i) a record of affirmative subscriber authorization; (ii) a demonstrated pattern of knowledgeable past use; or (iii) other persuasive evidence of authorization.

(B) Cancellation of Service Order

1. Subscribers may cancel without termination fees or penalties any new tariffed service or any new contract for service within 30 days after the new service is initiated. This Rule does not relieve the subscriber from payment for per use and normal recurring charges applicable to the service incurred before canceling, or for the reasonable cost of work done on the customer's premises (such as wiring or equipment installation) before the subscriber canceled.
2. When a Customer cancels a Service Order prior to the commencement of service or prior to any special construction, no charges will be imposed except for those specified below. The special charges described in this section will be calculated on a case-by-case basis.
3. Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charges for the minimum period of Services Orders, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.
4. Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage, applies. In such cases, the charge will be based on such elements as the cost of the equipment, facilities, and material, the cost of installation, engineering, labor, and supervision, general and administrative expense, other disbursements, depreciation, maintenance, taxes, provision for return on investment, and any other costs associated with the special construction or arrangements.
5. Charges are subject to the provisions of General Order No. 96-A.

SECTION 1.0: RULES (continued)

No. 3. Service Orders (continued)

(C) Cancellation of Service

1. A Customer may have service discontinued upon verbal or written notice to the Company. The Company will hold the Customer responsible for payment of all bills for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later. A termination liability charge applies to early cancellation of a term agreement.
2. No carrier whose service has been cancelled at the subscriber's request shall re-establish service for that subscriber without a new subscriber authorization. Authorization may not be founded upon any term in an agreement for service that binds the subscriber to again take service from the carrier.
3. Charges are subject to the provisions of General Order No. 96-A.

(D) At the expiration of the initial term specified in each Service Order or any term contract, or in any extension thereof, service will continue on a month-to-month basis at the then current rates unless terminated by either party. Any termination will not relieve the Customer of his or her obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations, which by their nature extend beyond the termination of the terms of the Service Order, will survive such termination.

(E) Termination Liability

Unless otherwise specified in individually negotiated contracts, Customer's termination liability for cancellation of service prior to the expiration of any term contract shall be equal to:

1. all unpaid nonrecurring charges reasonably expended by Company to establish service to Customer, plus;
2. any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by Company on behalf of Customer, plus;
3. the per month average of the monthly billing (excluding taxes and fees) over the term of the contract from date of commencement to the date of termination, times the number of months remaining in the contract.

2. No telephone corporation, or any person, firm, or corporation representing a telephone corporation, shall make any change or authorize a different telephone corporation to make any change in the provider of any telephone service for which competition has been authorized of a telephone subscriber without the subscriber's authorization.

(G) Employee Identification

- (1) Every carrier shall prepare and issue to every employee who, in the course of his or her employment, has occasion to enter the premises of subscribers of the carrier or applicants for service, an identification card in a distinctive format having a photograph of the employee. The carrier shall require every employee to present the card upon requesting entry into any building or structure on the premises of an applicant or subscriber.
- (2) Every carrier shall require its employees to identify themselves at the request of any applicant or subscriber during a telephone or in-person conversation, using a real name or other unique identifier.
- (3) No carrier shall misrepresent, or allow its employees to misrepresent, its association or affiliation with a telephone carrier when soliciting, inducing, or otherwise implementing the subscriber's agreement to purchase products or services, and have the charge for the product or service appear on the subscriber's telephone bill.

No. 4. Contracts

Contracts will be used in special circumstances for Individual Case Basis (“ICB”) service offerings or Special Construction. Customer and Company can enter into a contract for Centrex Service. The terms and conditions of each contract offering are subject to the agreement of both the Customer and Company. Such contract offerings will be made available to similarly situated Customers in substantially similar circumstances. Contracts are available to any similarly situated Customer.

ICB arrangements will be filed in accordance with General Order 96-A.

No. 5. Special Information Required On Forms

(A) Customer Bills

1. Telephone bills shall be clearly organized and may only contain charges for products and services the purchase of which the subscriber has authorized.
2. The name of the service provider associated with each charge must be clearly and conspicuously identified on the telephone bill. Certificated carriers shall use the name that appears on their Certificate of Public Convenience and Necessity, or any fictitious business names that are properly registered pursuant to Business and Professions Code §§ 17900 et seq. and registered with the Commission's Telecommunications Division. Abbreviations may be used so long as there is sufficient information to make it abundantly clear to the subscriber and Commission staff who the service provider is. For carriers not certificated by the Commission, the bill shall include the name under which the Carrier is certificated by the FCC, if applicable, or the Carrier's legal name as registered with the California Secretary of State.
3. Where charges for two or more carriers appear on the same telephone bill, the charges must be separated by service provider. This rule does not apply to wireless roaming charges.
4. Telephone bills shall clearly and conspicuously identify any change in service provider, including identification of charges from any new service provider. For purposes of this rule, "new service provider" means a service provider that did not bill the subscriber for service during the service provider's previous billing cycle. This definition shall include only providers that have continuing relationships with the subscriber that will result in periodic charges on the subscriber's bill until the service is canceled.
5. Any Carrier or billing agent that charges subscribers for products or services on a telephone bill shall include, or cause to be included, in the telephone bill the amount being charged for each product or service, and a clear and concise description of the service, product, or other offering for which a charge has been imposed. The description must be sufficiently clear in presentation and specific in content so that customers can accurately assess that the services for which they are billed correspond to those that they have requested and received, and that the costs assessed for those services conform to their understanding of the price charged.

No. 5. Special Information Required On Forms (continued)

(A) Customer Bills (continued)

6. Where a telephone bill contains both charges for basic residential or single line business service and other charges, the bill must distinguish between charges for which non-payment will result in disconnection of basic residential or single line business service, and charges for which non-payment will not result in such disconnection. The carrier must explain this distinction to the subscriber, and must clearly and conspicuously identify on the bill those charges for which nonpayment will not result in disconnection of basic residential or single line business service.
7. All mandated government taxes, surcharges and fees required to be collected from subscribers and to be remitted to federal, state or local governments shall be listed in a separate section of the telephone bill entitled "Government Fees and Taxes," and all such charges shall be separately itemized. This section of the bill shall not include any charges for which the carrier is not required to remit to the government the entire amount collected from customers. Carriers shall not label or describe non-government fees or charges in a way that could mislead subscribers to believe those charges are remitted to government.
8. Telephone bills shall, at a minimum, contain the following information:
 - (a) billing carrier's name, consistent with Rule 5 (A) 2. above;
 - (b) period of service covered by the bill (excluding services for which back billing is permitted);
 - (c) payment due date;
 - (d) late payment charge (if applicable) and date after which it may be applied;
 - (e) how to pay;
 - (f) the carrier's toll-free number for billing inquiries and disputes, along with a postal address, or an e-mail address if the subscriber has agreed to communicate via electronic media, where the subscriber may send a billing inquiry or complaint in writing; and

No. 6. Establishment and Reestablishment of Credit

The Company will conduct a credit investigation of each new residential and or business service Customer or prospective Customer prior to accepting the Service Order, Customer deposit or Advance Payment. A Customer whose service has been discontinued for nonpayment of bills for any regulated Company services will be required to re-establish credit before service is restored.

No. 7. Advance Payments, Deposits and Guarantors

(A) Advance Payments

At the time a Service Order is taken, a prospective Customer may be required to pay an amount equal to one month's service charges and/or the service connection and/or equipment charges which may be applicable as well as any nonrecurring charges for any required special construction. The Company will not require advance payments for usage. The advance payment made by the Customer is credited to the Customer's account on the first bill rendered.

(B) Deposits

1. Requirement: The Company may, at its sole discretion, require a prospective or existing Customer to post a guarantee for the payment of charges as a condition to receiving service or additional services. The Company reserves the right to review a prospective Customer or a Customer's credit history at any time to determine if a deposit is required.
2. Nondiscrimination: Deposits will not be required by the Company based on race, sex, creed, national origin, marital status, age, number of dependents, condition of physical handicap, source of income, or geographical area of business.
3. Amount: The amount of the deposit will not exceed twice the estimated average monthly bill for the class of service for which the deposit is to be applied. In the event a Customer requests services in addition to basic service, the average bill will reflect the aggregate services requested by the Customer. Interest on deposits will be set at the 3-month commercial paper rate published by the Federal Reserve Board, except no interest will be paid if the Customer has received a minimum of two discontinuance of service notices in a 12-month period. The fact that a deposit has been made neither relieves the Customer from complying with the Company's regulations on the prompt payment of bills on presentation nor constitutes a waiver or modification of the regulations of the Company providing for the discontinuance of service for nonpayment of any sums due the Company for services rendered.

5. Refund after Satisfactory Payment: After payment of all charges for 12 consecutive billing periods, within 30 days, the Company will refund the deposit to the Customer. The refund will include interest at the rate set forth above. Payment of a charge is satisfactory if received prior to the date that the charge becomes delinquent provided that it is not returned for insufficient funds or closed account. However, deposits may not receive interest if the Customer has received a minimum of two notices of discontinuance of service for nonpayment of bills in a 12-month period.

2. When the Company provides information to a Customer, which is allegedly in violation of its tariffs, the Customer shall have the right to bring a complaint against the Company. SECTION 1.0: RULES (continued)

No. 9. Rendering and Payment of Bills

- (A) The Customer is responsible for payment of all charges for Service furnished to the User.
- (B) The date a bill is rendered is dependent on the billing cycle assigned to the Customer. Customer bills are rendered and issued monthly. The Customer will receive its bill on or about the same day of each month. Months are presumed to have thirty (30) days.
- (C) A carrier shall credit payments effective the business day payments are received by the carrier or its agent. The date after which a bill is considered overdue and delinquent, and after which late charges may accrue, shall not be earlier than 22 days after the date the bill was mailed. Any authorized late payment penalty may not exceed 1.5% per month on the balance overdue. See Rule No. 10 (F). Subscribers shall not be liable for late payment charges on disputed amounts that are resolved in the subscriber's favor.
- (D) Each bill contains, but is not limited to: Nonrecurring Charges, monthly Recurring Charges, Usage Based Charges, Taxes and Surcharges. Nonrecurring Charges and monthly Recurring Charges are billed in advance. Usage Based Charges are billed in arrears. For partial months, the Company will prorate monthly Recurring Charges based on a thirty (30) day month. For a listing of Taxes and Surcharges, see Section 3.0.
- (E) Bills may be paid by mail or in person at the business office of the Company or an agency authorized to receive such payment. All charges for Service are payable only in United States currency. Payment may be made by cash, check, money order or cashier's check. Payments may also be made by credit cards that the Company, in its sole discretion, accepts as a form of payment.
- (F) See Rule No. 5 for other information to be included on the bill.
- (G) A bill shall not include any previously unbilled charge for intrastate service furnished prior to three months immediately preceding the date of the bill, four months in the case of wireless roaming charges on a system other than the subscriber's home system, and five months for collect, third-party, and calling card calls. This limitation on back billing does not apply in cases involving subscriber fraud.
- (H) Bills must be based on the rates in effect at the time the service was used. Any delays or lags in billing must not result in a higher total charge (other than for taxes, and surcharges and fees that are based on a percentage of the bill) than if the usage had been posted to the account in the same billing cycle in which the service was used.

- (B) If a Customer's service has been discontinued within the past twelve (12) months, or if the Customer incurs Usage Based Charges during a billing period which are equal to a least 200% of the amount of the Customer deposit or guarantee, payment may be demanded for the Usage Based Charges by a telephone call to the Customer followed by written notification of such demand sent by first class mail. If the requested payment is not made within five days from the rendition of written notification or a mutually established late payment arrangement date or 30 days from the date of the bill, the usage charge will be deemed delinquent and subject to Late Payment charges assessed from the date payment was due.
- (C) If a Customer's unbilled charges during a period exceed 200% of any previous monthly charges, payment may be demanded for the Usage Based Charges by a telephone call to the Customer followed by written notification of such demand sent by first class mail. If the requested payment is not made within five days from the rendition of written notification or a mutually established late payment arrangement date or 30 days from the date of the bill, the usage charge will be deemed delinquent and subject to Late Payment charges assessed from the date payment was due.
- (D) If a Customer's billing cycle is set to coincide with a calendar month and the Service Commencement Date for that Customer does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which Service was furnished will be calculated on a pro-rata basis. For this purpose, every month is considered to have thirty (30) days.
- (E) Billing of the Customer by the Company will begin on the Service Commencement Date, which is the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the Service, circuit, arrangement or component is discontinued.
- (F) If any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a Late Payment penalty shall be due to the Company. No. 15. Continuity of Service (continued)

(A) Allowances for Interruptions in Service

Credit allowance for interruptions of service, which are not due to the Company's testing or adjusting, to the negligence of the Customer or to the failure of channels, equipment or communications system provided by Customer, are subject to the general liability provisions set forth in Rule No. 22, herein. It shall be the obligation of the Customer to notify the Company of any interruptions in service. Before giving such notice, Customer shall ascertain that the trouble is not being caused by any action or omission of Customer, not within his control or is not in wiring or equipment connected to the terminal of the Company.

(B) Credit for Interruptions

1. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins when the Company becomes aware of the interruption. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
2. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.
3. A credit allowance will be given for interruptions of 30 minutes or more. Credit allowances shall be calculated as follows:

<u>Interruption of 24 hours or less:</u>	<u>Interruption Period to be Credited</u>
Less than 30 minutes	none
30 minutes up to, but not including 3 hours	1/10 day
3 hours up to, but not including 6 hours	1/5 day
6 hours up to, but not including 9 hours	2/5 day
9 hours up to, but not including 12 hours	3/5 day
12 hours up to, but not including 15 hours	4/5 day
15 hours up to, but not including 24 hours	One day

Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

Interruption over 24 hours:

Interruptions over 24 hours will be credited 1/5 day for each 3-hour period or fraction thereof. No more than one full day's credit will be allowed for any 24-hour period.

8. Interruption shall not include, and no allowance shall be given for, service difficulties such as slow dial tone, circuits busy or other network and/or switching capability shortages. Nor shall Interruption include the failure of any service or facilities provided by a common carrier or other entity other than the Company. Any Interruption allowance provided within this Tariff by Company shall not apply where service is interrupted by the negligence or willful act of the Customer, or where the Company, pursuant to the terms of this Tariff, terminates service because of nonpayment of bills, unlawful or improper use of the Company's facilities or service or any other reason covered by this Tariff or by applicable law.

When such suspension or interruption of service for any appreciable period is necessary, the Company will give the Customers who may be affected as reasonable notice thereof as circumstances will permit, and will prosecute the work with reasonable diligence, and if practicable at times that will cause the least inconvenience.

When the Company is repairing or changing its facilities, it will take appropriate precautions to avoid unnecessary interruptions of conversations or Customers' service.

No. 19. Measurement of Service Based on Mileage

When charges for calls are mileage sensitive, airline mileage is computed as described below.

Calls are measured and rounded to the higher full minute from the Serving Wire Center of the Customer's originating location to the Serving Wire Center of the destination of the call, regardless of Company routing. The distance between the serving wire center origination point and that of the destination point is calculated by using the "V" and "H" coordinates as defined by Bell Communications Research (BellCore) and NECA Tariff FCC No. 4 in the following manner:

- Step 1 Obtain the "V" and "H" coordinates for the originating and terminating wire centers.
- Step 2 Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.
- Step 3 Square the differences obtained in Step 2.
- Step 4 Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 Divide the sum of the squares obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results.
- Step 6 Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the airline mileage of the call.

Formula:

$$\sqrt{\frac{(v_1 - v_2)^2 + (h_1 - h_2)^2}{10}}$$

- (C) Timing terminates on all calls when the calling party hangs up or the Company's network receives an Off-Hook signal from the terminating carrier.

Accordingly, Appendix B of Decision No. 91188, Case No. 4930, is quoted herein:

"Appendix B"

- (A) Any communications utility operating under the jurisdiction of this Commission shall refuse service to a new prospective Customer and shall disconnect existing service to a Customer upon receipt from any authorized official of a law enforcement agency of a writing, signed by a magistrate, as defined by Penal Code sections 807 and 808, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law. Included in the magistrate's writing shall be a finding that there is probable cause to believe not only that the subject telephone facilities have been or are to be used in the commission or facilitation of illegal acts, but that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety or welfare will result.
- (B) Any person aggrieved by any action taken or threatened to be taken pursuant to this rule shall have the right to file a complaint with the Commission and may include therein a request of interim relief. The Commission shall schedule a public hearing on the complaint to be held within 20 calendar days of the filing of the complaint. The remedy provided by this rule shall be exclusive. No other action at law or in equity shall accrue against any communications utility because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of this rule.
- (C) If communications facilities have been physically disconnected by law enforcement officials at the premises where located, without central office disconnection, and if there is not presented to the utility the written finding of a magistrate, as specified in paragraph 1 of this rule, then upon written request of the subscriber, the utility shall promptly restore such service.
- (D) Any concerned law enforcement agency shall have the right to Commission notice of any hearing held by the Commission pursuant to paragraph 2 of this rule, and shall have the right to participate therein, including the right to present evidence and argument and to present and cross-examine witnesses. Such law enforcement agency shall be entitled to receive copies of all notices and orders issued in such proceeding and shall have both (1) the burden of proving that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law and that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety or welfare will result, and (2) the burden of persuading the Commission that the service should be refused or should not be restored.

- (F) At the expiration of 15 days after refusal or disconnection of service pursuant to paragraph 1 of this rule, the utility, upon written request of the prospective Customer or subscriber, shall provide or restore such service unless the law enforcement agency concerned shall have notified the utility in writing of its objection to such provision or restoration of service, in which event service may be provided or restored only in a complaint proceeding pursuant to paragraph 2 of this rule. At the time of giving any such notice of objection, the law enforcement agency shall mail or deliver a copy thereof to the prospective Customer or subscriber. (B) Local Loop Demarcation Point (continued)

4. Exceptions: (continued)

- (d) If a property owner desires an additional Local Loop Demarcation Point(s) at a specified location on a Customer's premises for purposes of providing service assurance, safety, security and privacy of data communications over the cable (also known as Direct Feed), the owner will be required to pay for additional network cable and network facilities through special construction arrangements. In particular, additional Local Loop Demarcation Points cannot be used to extend any cable pairs served from any Local Loop Demarcation Point from location to another location.
- (e) Fiber Optic Cable: The demarcation point is at the Company-provided Fiber Optic Terminal (FOT) equipment. The Company's responsibility includes the FOT equipment where the equipment has been provided by the Company.
- (f) Carrier Points of Presence (POP): Local Loop Demarcation Point guidelines are not applicable for access services provided to interexchange carriers, local exchange carriers, and radio carriers (both private carriers and common carriers as defined by applicable Federal Communications Commission's regulations) Point of Presence location. However, the Local Loop Demarcation Point rules do apply to all Company-provided service(s) provisioned to a Point of Presence when the service(s) is used in the capacity of an end-user of the service(s).

(C) INC Demarcation Point

- 1. The Intrabuilding Network Cable (INC) demarcation point separates the building owner's responsibility to provide INC from the Customer's responsibility to provide inside wire, standard jacks and customer premises equipment. This demarcation point designates the end of the INC provided by the building owner and the beginning of simple or complex inside wire provided by the Customer.
- 2. The INC demarcation point is located at the distribution terminal(s) on each floor in a multi-story building, except as set forth in Paragraph 3 below and B4 preceding.
- 3. Where there is no intrabuilding network cable or it is in a single-story building, the INC demarcation is the Company's Local Loop Demarcation Point.

SECTION 1.0: RULES (continued)

No. 43. Demarcation Points (continued)

(D) Inside Wire Demarcation Point

1. The Inside Wire Demarcation Point is located where Customer premises equipment (CPE) is connected to the inside wire. This demarcation point designates the end of the inside wire and the beginning of the CPE facilities.
2. The Inside Wire Demarcation Point separates the inside wire vendor's responsibility from that of the CPE vendor. This demarcation point, where the Company is the vendor of choice for inside wire repair and the CPE trouble isolation, begins where the Customer's inside wire connects to the INC. Where there is no INC, the Inside Wire Demarcation Point is the MPOE.

(E) Continuous Property

1. Continuous Property is land which
 - (a) is wholly owned by a single individual or entity, regardless of whether the owner leases¹ all or a portion(s) of the property to another and
 - (b) contains, or will contain, multiple buildings where all portions of the property may be served without crossing a public thoroughfare² or the property of another.
2. There are three basic types of Continuous Properties:
 - (a) Single-tenant commercial in which one owner or tenant occupies a building.
 - (b) Mixed commercial and residential (e.g., building with both commercial and residential space or campus-type configurations such as colleges and military bases) in which a mixture of business and residential uses exists.
 - (c) Multi-tenant commercial and/or residential in which several tenants occupy a building individually on a per-floor or per-section basis.

Single-family homes and properties within which a portion(s) of the land is owned by separate entities and portion(s) is owned by the entities in common³ do not constitute Continuous Property.

¹ The property retains its character as a Continuous Property regardless of whether the owner or a lessee (who wholly leases the property from the owner) sublets a portion(s) of the property to another, e.g., apartment buildings or complexes. Condominiums also are Continuous Property

² A "public thoroughfare" is a street, road or other means of passage across a property, which is not subject to restrictions on ingress, egress or boundaries.

³ Such as town homes and homes in gated communities.

SECTION 1.0: RULES (continued)

No. 43. Demarcation Points (continued)

(E) Continuous Property (continued)

3. Continuous Property

(a) For Continuous Property, regardless of use, the Company's Local Loop Demarcation Point will be at the appropriate main distribution terminal as determined by negotiations between the property owner and the Company. Where an agreement cannot be reached, the Company will designate the Local Loop Demarcation Point location.

(b) It is the property owner's responsibility to provide and maintain INC within and between buildings on a continuous property. The Company may, at the Customer request and expense, provide INC.

4. Where an owner of Continuous Property requests additional Local Loop Demarcation Points or changes an existing local loop demarcation point, the owner will be required to pay for any additional network cable and facilities required through special construction agreements set forth in this tariff, except as provided in the preceding paragraph.

5. The INC and Inside Wire Demarcation Points are located as described above.

6. At the request of a property owner, a Company may waive the designation of a single Local Loop Demarcation Point for a Continuous Property if, due to the unique characteristics of the property, a hardship would be created for the property owner and/or the Company. Examples of such Continuous Property include (a) national, state and local parks, beaches, highways, harbors and similar publicly owned property and (b) railroad rights-of-way and extensive, privately owned tracts of land with developed communities (e.g., the City of Irvine) and similar privately owned property. The Company will treat land within the boundaries of privately owned property under (b) above as Continuous Property, provided that it had the characteristics of Continuous Property, e.g., (a) it is wholly leased by a single individual or entity and (b) it contains or will contain multiple buildings.

This paragraph is not intended in any way to waive the unbundling of INC in each building.

SECTION 1.0: RULES (continued)

No. 44. Slamming Complaints

(A) General

Slamming is the unauthorized change of a subscriber's presubscribed carrier. These California specific rules are designed to supplement and work in conjunction with corresponding rules issued by the Federal Communications Commission.

The California Public Utilities Commission is the primary adjudicator of both intrastate and interstate slamming complaints in California. A subscriber may request that the FCC rather than the Commission handle an interstate slamming complaint, in which case the FCC would apply its rules, and these rules would govern any related intrastate complaint. Where these rules differ from the FCC's slamming rules, the differences are in recognition of California specific issues and are consistent with the FCC's mandate to the states.

Compliance with these rules does not relieve carriers of other obligations they may have under their tariffs, other Commission general orders and decisions, FCC orders, and state and federal statutes. Nor do these rules limit any rights a consumer may have.

The Commission intends to continue its policy of cooperating with law enforcement authorities to enforce consumer protection laws that prohibit misleading advertising and other unfair business practices. These rules do not preclude any civil action that may be available by law. The remedies the Commission may impose for violations of these rules are not intended to displace other remedies that may be imposed by the courts for violation of consumer protection laws.

These rules take precedence over any conflicting tariff provisions on file at the Commission. The remedies provided by these rules are in addition to any others available by law.

Prosecution, whether civil or criminal, by any local or state law enforcement agency to enforce any consumer protection or privacy law does not interfere with any Commission policy, order or decision, or the performance of any duty of the Commission, related to the enactment or enforcement of these rules. Such prosecution, however, does not, in any way, limit the Commission's authority to interpret or enforce these rules as the Commission determines appropriate.

These rules are not intended to create a private right of action to impose liability on carriers or other utilities for damages, which liability would not exist had these rights not been adopted.

SECTION 1.0: RULES (continued)

No. 44. Slamming Complaints (continued)

(B) Authorization and Verification of Orders for Telecommunications Services

Authorization and verification of orders for telecommunications services shall be done in accordance with applicable state and federal laws.

(C) Carrier Liability for Slamming

1. Carrier Liability for Charges. Any submitting telecommunications carrier that fails to comply with the required procedures for changing carriers or verifying subscriber authorization shall be liable to the subscriber's properly authorized carrier in an amount equal to 150% of all charges paid to the submitting telecommunications carrier by such subscriber after such violation, as well as for additional amounts as prescribed in Part 44(F). The remedies provided in this Part 44 are in addition to any other remedies available by law.
2. Subscriber Liability for Charges. Any subscriber whose selection of telecommunications services provider is changed without authorization verified in accordance with legally-required procedures is liable for charges as follows:
 - (a) If the subscriber has not already paid charges to the unauthorized carrier, the subscriber is absolved of liability for charges imposed by the unauthorized carrier for service provided during the first 30 days after the unauthorized change. Upon being informed by a subscriber that an unauthorized change has occurred, the authorized carrier, the unauthorized carrier, or the executing carrier shall inform the subscriber of this 30-day absolution period. Any charges imposed by the unauthorized carrier on the subscriber for service provided after this 30-day period shall be paid by the subscriber to the authorized carrier at the rates the subscriber was paying to the authorized carrier at the time of the unauthorized change in accordance with the provisions of Part 44(F)5.
 - (b) If the subscriber has already paid charges to the unauthorized carrier, and the authorized carrier receives payment from the unauthorized carrier as provided for in paragraph (1) of this section, the authorized carrier shall refund or credit to the subscriber any amounts determined in accordance with the provisions of Part 44(F).
 - (c) If the subscriber has been absolved of liability as prescribed by this section, the unauthorized carrier shall also be liable to the subscriber for any charge required to return the subscriber to his or her properly authorized carrier, if applicable.

SECTION 1.0: RULES (continued)

No. 44. Slamming Complaints (continued)

(D) Procedures for Resolution of Unauthorized Changes in Preferred Carrier

1. Notification of Alleged Unauthorized Carrier Change. Executing carriers who are informed of an unauthorized carrier change by a subscriber must immediately notify both the authorized and allegedly unauthorized carrier of the incident. This notification must include the identity of both carriers.
2. Referral of Complaint. Any carrier, executing, authorized, or allegedly unauthorized, that is informed by a subscriber or an executing carrier of an unauthorized carrier change shall direct that subscriber to CAB for resolution of the complaint.
3. Notification of Receipt of Complaint. Upon receipt of an unauthorized carrier change complaint, CAB will notify the allegedly unauthorized carrier of the complaint and order that the carrier remove all unpaid charges for the first 30 days after the slam from the subscriber's bill pending a determination of whether an unauthorized change, as defined in Section 1, No. 1 of this tariff, has occurred, if it has not already done so.
4. Proof of Verification. Not more than twenty business days after notification of the complaint, the alleged unauthorized carrier shall provide to CAB a copy of any valid proof of verification of the carrier change. This proof of verification must contain clear and convincing evidence of a valid authorized carrier change. CAB will determine whether an unauthorized change, as defined in Section 1, No. 1 of this tariff, has occurred using such proof and any evidence supplied by the subscriber. Failure by the carrier to respond or provide proof of verification will be presumed to be clear and convincing evidence of a violation.

(E) Absolution Procedure Where the Subscriber Has Not Paid Charges

1. This section shall only apply after a subscriber has determined that an unauthorized change, as defined in Section 1, No. 1 of this tariff, has occurred and the subscriber has not paid charges to the allegedly unauthorized carrier for service provided for 30 days, or a portion thereof, after the unauthorized change occurred.
2. An allegedly unauthorized carrier shall remove all charges incurred for service provided during the first 30 days after the alleged unauthorized change occurred, as defined in Section 1, No. 1 of this tariff, from a subscriber's bill upon notification that such unauthorized change is alleged to have occurred.

SECTION 1.0: RULES (continued)

No. 44. Slamming Complaints (continued)

(E) Absolution Procedure Where the Subscriber Has Not Paid Charges (continued)

3. An allegedly unauthorized carrier may challenge a subscriber's allegation that an unauthorized change, as defined in Section 1, No. 1 of this tariff, occurred. An allegedly unauthorized carrier choosing to challenge such allegation shall immediately notify the complaining subscriber that: the complaining subscriber must file a complaint with CAB within 30 days of either: the date of removal of charges from the complaining subscriber's bill in accordance with paragraph 2. of this section or; the date the allegedly unauthorized carrier notifies the complaining subscriber of the requirements of this paragraph, whichever is later; and a failure to file such a complaint within this 30-day time period will result in the charges removed pursuant to paragraph 2. of this section being reinstated on the subscriber's bill and, consequently, the complaining subscriber will only be entitled to remedies for the alleged unauthorized change other than those provided for in No. 44(C)2(a). No allegedly unauthorized carrier shall reinstate charges to a subscriber's bill pursuant to the provisions of this paragraph without first providing such subscriber with a reasonable opportunity to demonstrate that the requisite complaint was timely filed within the 30-day period described in this paragraph.
4. If CAB, under No. 44(G) below, determines after reasonable investigation that an unauthorized change, as defined in Section 1, No. 1 of this tariff, has occurred, it shall notify the carriers involved that the subscriber is entitled to absolution from the charges incurred during the first 30 days after the unauthorized carrier change occurred, and neither the authorized or unauthorized carrier may pursue any collection against the subscriber for those charges.
5. If the subscriber has incurred charges for more than 30 days after the unauthorized carrier change, the unauthorized carrier must forward the billing information for such services to the authorized carrier, which may bill the subscriber for such services using either of the following means:
 - (a) The amount of the charge may be determined by a re-rating of the services provided based on what the authorized carrier would have charged the subscriber for the same services had an unauthorized change, as described in Section 1, No. 1 of this tariff, not occurred; or
 - (b) The amount of the charge may be determined using a 50% Proxy Rate as follows: Upon receipt of billing information from the unauthorized carrier, the authorized carrier may bill the subscriber for 50% of the rate the unauthorized carrier would have charged the subscriber for the services provided. However, the subscriber shall have the right to reject use of this 50% proxy method and require that the authorized carrier perform a re-rating of the services provided, as described in paragraph 5(a) of this section.
6. If the unauthorized carrier received payment from the subscriber for services provided after the first 30 days after the unauthorized change occurred, the obligations for payments and refunds provided for in No. 44(F) shall apply to those payments. If CAB, under No. 44(G) below, determines after reasonable investigation that the carrier change was authorized, the carrier may re-bill the subscriber for charges incurred.

(F) Reimbursement Procedures Where the Subscriber Has Paid Charges

1. The procedures in this section shall only apply after a subscriber has determined that an unauthorized change, as defined in Section 1, No. 1 of this tariff, has occurred and the subscriber has paid charges to an allegedly unauthorized carrier.
2. If CAB, under Part (G) below, determines after reasonable investigation that an unauthorized change, as defined in Section 1, No. 1 of this tariff, has occurred, it shall direct the unauthorized carrier to forward to the authorized carrier the following:
 - (a) An amount equal to 150% of all charges paid by the subscriber to the unauthorized carrier; and
 - (b) Copies of any telephone bills issued from the unauthorized carrier to the subscriber. This order shall be sent to the subscriber, the unauthorized carrier, and the authorized carrier.
3. Within ten days of receipt of the amount provided for in paragraph 2(a) of this section, the authorized carrier shall provide a refund or credit to the subscriber in the amount of 50% of all charges paid by the subscriber to the unauthorized carrier. The subscriber has the option of asking the authorized carrier to re-rate the unauthorized carrier's charges based on the rates of the authorized carrier and, on behalf of the subscriber, seek an additional refund from the unauthorized carrier, to the extent that the re-rated amount exceeds the 50% of all charges paid by the subscriber to the unauthorized carrier. The authorized carrier shall also send notice to CAB that it has given a refund or credit to the subscriber.
4. If an authorized carrier incurs billing and collection expenses in collecting charges from the unauthorized carrier, the unauthorized carrier shall reimburse the authorized carrier for reasonable expenses.
5. If the authorized carrier has not received payment from the unauthorized carrier as required by paragraph 3 of this section, the authorized carrier is not required to provide any refund or credit to the subscriber. The authorized carrier must, within 45 days of receiving CAB's determination as described in paragraph 2 of this section, inform the subscriber and CAB if the unauthorized carrier has failed to forward to it the appropriate charges, and also inform the subscriber of his or her right to pursue a claim against the unauthorized carrier for a refund of all charges paid to the unauthorized carrier.
6. Where possible, the properly authorized carrier must reinstate the subscriber in any premium program in which that subscriber was enrolled prior to the unauthorized change, if the subscriber's participation in that program was terminated because of the unauthorized change. If the subscriber has paid charges to the unauthorized carrier, the properly authorized carrier shall also provide or restore to the subscriber any premiums to which the subscriber would have been entitled had the unauthorized change not occurred. The authorized carrier must comply with the requirements of this section regardless of whether it is able to recover from the unauthorized carrier any charges that were paid by the subscriber.

Any usage in excess of 5,000 minutes per month shall be presumed to be inconsistent with Small Business voice applications and shall be subject to the conditions above.

Schedule 6: Calling Features - Explained

No. 1. General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability. Certain features may not be available with all classes of service. Transmission levels for calls forwarded or calls placed or received using optional calling features may not be acceptable for all some uses in some cases. Complete instructions on the use of features are sent to each new Customer upon Service Order Confirmation.

No. 2. Description of Features

The following optional calling features are offered to Customers on a monthly basis. Customers are allowed unlimited use of each feature. No usage sensitive charges apply. Multiline Customers must order the appropriate number of features based on the number of lines that will have access to the feature. Features are available where facilities permit.

- (A) **900 / 976 Blocking**: Allows the end-user to restrict access to dialing any phone numbers that begin with a 900 or 976 NPA or Area Code. Customers may designate this feature on a Service Order or request it from the Company at any time.
- (B) **Anonymous Call Rejection**: Permits the end-user to automatically reject incoming calls when the call originates from a telephone number which has blocked delivery of its calling number (see Caller ID Blocking). When active, callers who have blocked their number will be routed to a special announcement then terminated.
- (C) **Call Forwarding**: Permits the end-user to automatically forward (transfer) all incoming calls to another telephone number and to restore it to normal operation at their discretion. This service is offered subject to availability of suitable facilities; it is not available in all areas and on all calls, or with certain types of telephone equipment. Calls forwarded outside the local service area will incur toll and/or long distance charges. Not available on all calls forwarded to numbers outside the United States.
- (D) **Call Forwarding Busy**: Permits the forwarding of incoming calls when the end-user's line is busy. Schedule 6: **Calling Features – Explained** (continued)

No. 2. **Description of Features** (continued)

- (E) **Call Forwarding Don't Answer:** Permits the forwarding of incoming calls when the end-user's line remains unanswered after a pre-designated ringing interval. The ringing interval before forwarding and the forward-to number are fixed by the Service Order. This service is offered subject to availability of suitable facilities; it is not available in all areas and on all calls, or with certain types of telephone equipment. Calls forwarded outside the local service area will incur toll and/or long distance charges. Not available on all calls forwarded to numbers outside the United States.
- (F) **Call Return:** This feature allows the Customer to return a call to the last incoming call whether answered or not. Upon activation, it will re-dial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The Customer is alerted with a distinctive ringing pattern when the busy number is free. When the Customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.
- (G) **Call Screen:** Allows the end-user to automatically block incoming calls from up to six end-user pre-selected telephone numbers programmed into the feature's screening list. Callers whose numbers have been blocked will hear a recorded message stating that their call has been blocked. The end-user controls when the feature is active, and can add or remove calling numbers from the feature's screening list.
- (H) **Call Waiting:** Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. It permits the Customer to place the first call on hold, answer the second call and then alternate between both callers. If a third caller attempts to reach the Customer while the Customer has two calls alternating, the third caller will get a busy signal. Cancel Call Waiting is provided with the feature and allows a Call Waiting end-user to disable the Call Waiting feature for the duration of a single outgoing telephone call. Cancel Call Waiting is activated by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call.
- (I) **Call Waiting ID:** Same as Call Waiting, but also permits the end-user to view the Directory Number of the calling party on incoming calls while they are already engaged in a telephone call.
- (J) **Caller ID:** Permits the end-user to view the Directory Number of the calling party on incoming telephone calls. Schedule 6: Calling Features – Explained (continued)

No. 2. Description of Features (continued)

- (K) **Caller ID Blocking**: Prevents a caller's Directory Number to be viewed by the Caller ID equipment of the party they are calling. Both Selective and Complete blocking are available.
- (L) **Distinctive Ringing**: This feature allows an end user to determine the source of an incoming call from a distinctive ring. The end user may have up to two additional numbers assigned to a single line (i.e. Distinctive Ring - First Number and Distinctive Ring - Second Number). The designated primary number will receive a normal ringing pattern, other numbers will receive distinctive ringing patterns. The pattern is based on the telephone number that the calling party dials.
- (M) **Remote Access to Call Forwarding**: Allows the end-user to activate and deactivate their Call Forwarding feature and to change their forwarded-to number from a location other than where their service is located.
- (N) **Remote Call Forwarding**: Provides a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (the terminating station). This service is offered subject to availability of suitable facilities.

Remote call forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Call Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the exchange serving the terminating station have the identical local calling area within the same county, or are within an Extended Area Service arrangement. All other calls will be sent-paid (1+) only.

Where calls are to be forwarded to telephone service other than that of the RCF subscriber, it shall be the responsibility of the RCF subscriber to obtain permission for such forwarding from the subscriber to the other service and to determine a mutually acceptable number of access paths. The RCF subscriber shall be responsible for the tariffed charges for any resulting rearrangement of the RCF service.

Schedule 6: Calling Features – Explained (continued)

No. 2. Description of Features (continued)

- (O) **Repeat Dialing**: Permits the end-user to have calls automatically re-dialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive calls while the feature is activated. The following types of calls cannot be reached using Repeat Dialing:
- Calls to 800 Service numbers
 - Calls to 900 Service numbers
 - Calls preceded by an interexchange carrier access code
 - International Direct Distance Dialed calls
 - Calls to Directory Assistance
 - Calls to 911
- (P) **Select Call Forwarding**: Permits the end-user to automatically forward (transfer) calls from up to ten pre-selected numbers to another telephone number and to restore it to normal operation at their discretion. This feature can be used in conjunction with Call Forwarding.
- (Q) **Speed Calling**: Permits the Customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. Code lists may include local and/or toll telephone numbers. The Customer has the ability to add or remove telephone numbers and codes to/from the speed calling list without assistance from the Company.
- (R) **Three Way Calling**: Allows a Customer to add a third party to an existing two-way call and form a three-way call. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The Customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. This feature may be used on both outgoing and incoming calls.

Dear (Customers Name):

This notice is to advise you of the availability of Universal Lifeline Telephone Service (ULTS). California state law requires all telephone utilities providing local service within California to offer discounted local telephone service to qualified, low-income California customers and qualified, low-income California customers who are deaf or hard of hearing.

The California Public Utilities Commission requires that we advise customers of the availability and benefits of ULTS, including the newly allowed benefits of 1) obtaining a second ULTS line for eligible, low-income deaf or hard of hearing customers and/or 2) the option to now order an unlimited number of regular, non-ULTS phone lines, payable at full-cost, in addition to receiving ULTS.

If you believe you qualify for one-line ULTS, or if you are participating in the annual re-certification process, please fill out the Enrollment Application and Self-Certification form on the reverse and return the entire notice to the address indicated on the form.

Note: The California Public Utilities Commission requires that this form be returned to ASIAN AMERICAN ASSOCIATION within the timeframes listed below. Otherwise, your local service will revert to the regular, full-service rate:
